

**Role:**

Administrator

Objectives:

In this scenario, you will:

- Navigate to the **Control Panel** page
- Select the RSS feed option
- Navigate to a blog page
- Select the RSS feed option

Quick Start Guide:**Enabling RSS Feeds**

Journal entries can be reviewed from the course page or viewed in a feed aggregator, such as Bloglines and Google Reader. After the RSS feed has been enabled by the administrator, students can subscribe to the feed.

Enabling an RSS Feed for a Course-wide Blog**Navigation:**

1. Enter a course.
2. Click the **Control Panel** link.
3. Click the **Configure Blog Tool** link.

Steps:

Course Blog Tool Options

1. Select **Yes** as the **Do you want to enable public (unauthenticated) RSS feed** option.
2. Click the **OK** button.

Enabling an RSS Feed for a Course-content Blog**Navigation:**

1. Enter a course.
2. Navigate to the folder or area that contains the blog.
3. Click the **Modify** button for the blog

Steps:

Course Blog Tool Options

1. On the blog page, click the **edit** link.
2. Select **Yes** as the **Do you want to enable public (unauthenticated) RSS feed** option.
3. Click the **OK** button.
